

Summer Bootcamp Homework 2

Business Week

Deliverables

Complete the following injects and submit both as separate PDFs:

- Give yourself 30 min to complete each prompt (timeliness is important in the real competition!)
- Use an inject template
 - You can use the same one you made in the activity
- Remember: Keep it concise and organized!

Inject Prompt 1

From: Venus Saur (she/her) - IT Manager

Hey team, I need you to do some research on ways to remotely access hosts. Specifically, give me a thorough guide on how to use RDP and SSH (the more detailed the better!). I need to submit a report to the CIO before the end of the day, so be swift.

Inject Prompt 2

From: Penny Slots (she/her) - CFO

Hi IT Security Team, Venus informed me I could rely on you to conduct an investigation. Recently, we've seen a significant decrease in revenue and we suspect it may have something to do with a hotel and casino called The Wormhole. Can you use any available OSINT and compile a list of the LinkedIn profiles of their employees? Thanks!
